COLOUR DESIGNER®

BROUGHT TO YOU BY LEADING PAINT BRANDS

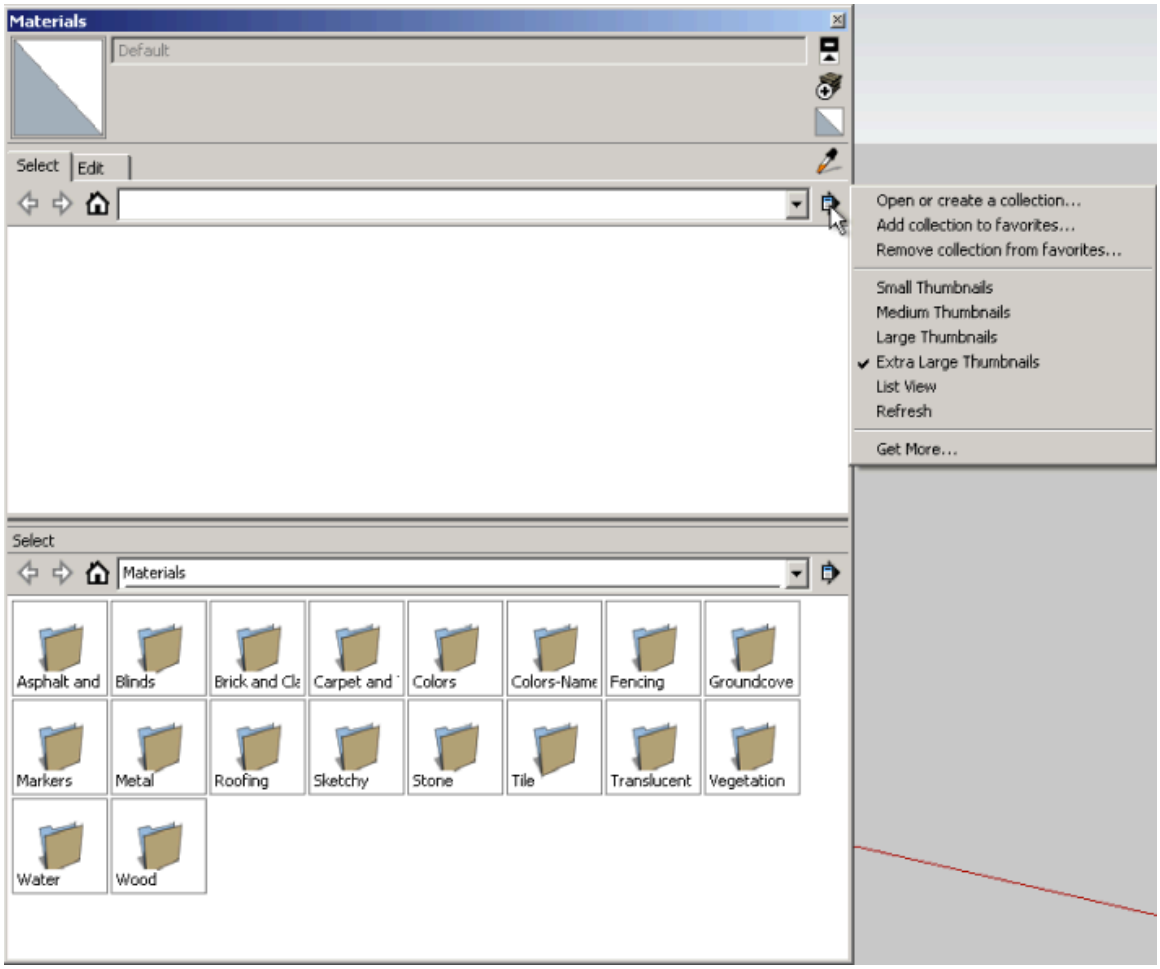
Thank you for downloading the Wattyl Colour range files for Sketchup.

These allow you to quickly and easily use Wattyl's vast colour range in your Sketchup projects. You can quickly test different colour schemes & provide your clients with more realistic visualization's. Google sketchup is a free download from sketchup.google.com

Adding Wattyl colours to your sketchup files is an easy process:

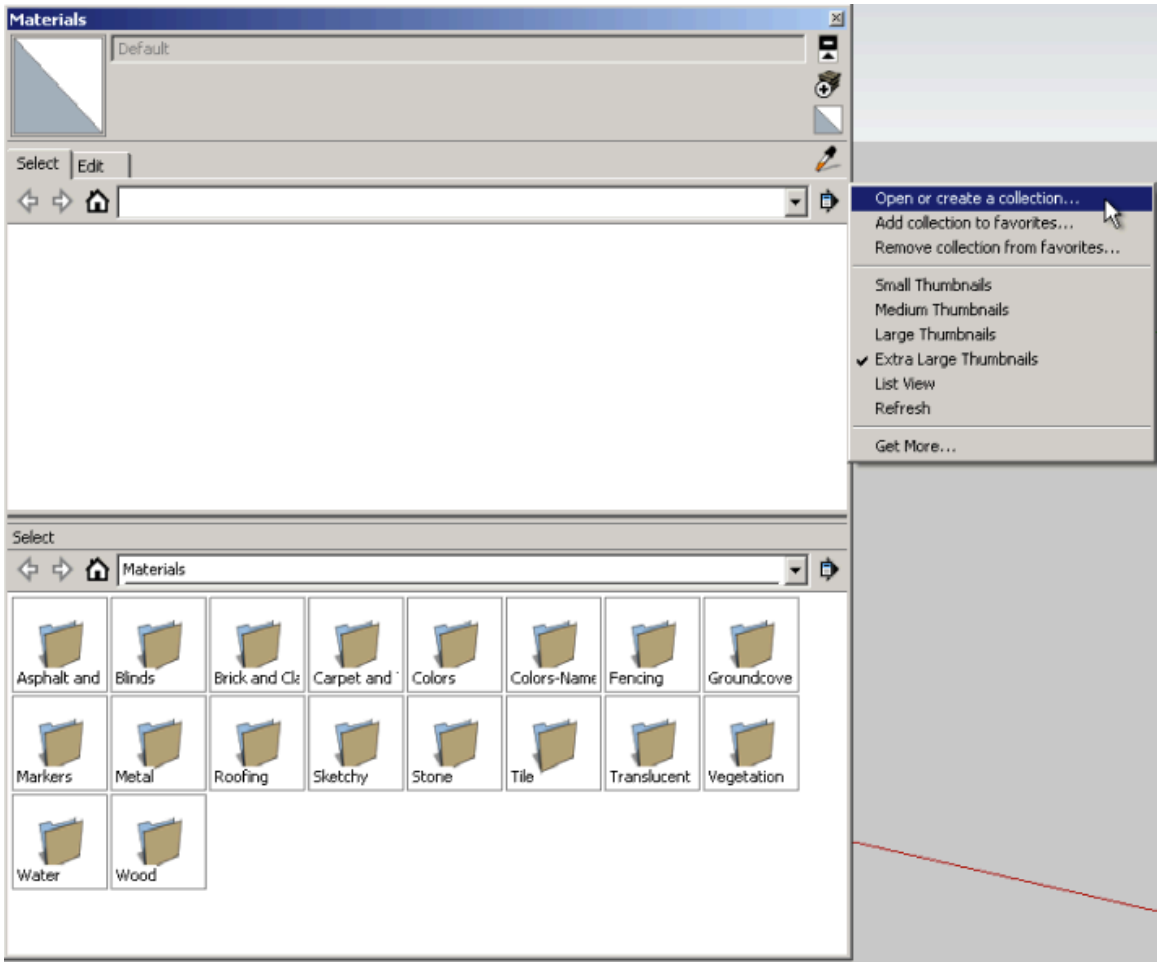
Modlar Limited © 2015
www.modlar.com

1. Open the Sketchup Materials browser. This is found under Window > Materials



Modlar Limited © 2015
www.modlar.com

2. Press the arrow button, & select load/create a new collection.



3. From there, browse to where you have downloaded the Wattyl Sketchup colour ranges.

4. Select which range's folder you would like to add and click open.

Modlar Limited © 2015
www.modlar.com

5.This will open the selected range and add it to the materials favourites menu.
